Optimizing Your Dental Insurance Reimbursements Should you have dental insurance; we offer the courtesy of working directly with your insurance carrier to maximize your benefits reimbursements. Every patient's benefits vary greatly from carrier to carrier. It is important to understand that we have no control over what your dental insurance provides for benefits. Estimates Provided Patients often need out-of-pocket estimates to decide on their treatments. If our estimates are off, the difference owed is not our responsibility, it is the patient's responsibility. We do our best to estimate insurance benefits but they are not always accurate. Balances Remaining After the Insurance Payment Are the Patients Responsibility Patients are ultimately responsibile for their account balance no matter how much their dental insurance reimburses or whether or not our estimates are accurate. If your insurance company has not made payment within 60 days of billing, the balance becomes your responsibility. Insurance coverage and benefits levels are a contractual agreement between the insurance company and you or your employer. When Insurance Sends You the Reimbursement Check Some insurance companies send your dental benefits checks directly to our office to put towards your balance owed. A small number of companies send checks directly to you. When your insurance company does this, we expect payment in full at the time of service. Lateness, No-Show, and Late Cancellations If you must cancel, please call us with at least 24 hours advance notice and we can assist with rescheduling. We charge \$40 for late cancellations or no-shows for hygiene and \$80 for doctor appointments that are missed or late cancelled. Habitually late, repeat 'no-show', or 'late cancel' offenders should expect to be dismissed from practice. We do not make appointments without your consent. We also confirm your appointment several days in advance via email, phone and/or text. Deactivated Record after 2 Years of Inactivity If 2 years pa	Initials	Section Topic
